**ALIANZA ANTI-CORRUPCION
ENTRE SCI Y GIACC**

En el presente documento se establecen los términos en los cuales la Sociedad Colombiana de Ingenieros (SCI) y el Centro Global Anti-Corrupción de Infraestructura (GIACC por sus siglas en inglés) acuerdan formar una alianza anti-corrupción:

1. **Objetivo común:** SCI y GIACC acuerdan trabajar juntos en el sector de infraestructura con el objetivo siguiente:

"Promover la puesta en práctica de medidas anti-corrupción como parte integral de las actividades gubernamentales, corporativas y de manejo de proyecto."

2. **Alianza Informal:** La alianza entre SCI y GIACC sera informal. No se establecerá una nueva organización ni existirán las consiguientes obligaciones legales o contractuales. Es tan solo una alianza para alcanzar un objetivo común en aras del bien público.

3. **Actividades de la SCI:** La SCI trabajará con todas las partes interesadas del sector de infraestructura en Colombia para crear conciencia sobre la corrupción mediante la promoción y/o el suministro de entrenamiento anti-corrupción y para promover la puesta en práctica de medidas anti-corrupción.

4. **Líder Anti-Corrupción:** La SCI nombrará un Líder Anti-Corrupción (o cargo similar) que será un miembro principal de la SCI y que dirigirá la puesta en práctica de la estrategia anti-corrupción de la SCI. El líder Anti-Corrupción deberá poseer las calificaciones siguientes:

- Experiencia considerable en el sector de infraestructura
- Compromiso en relación con la agenda anti-corrupción
- Entusiasmo y energía y,
- El convencimiento de que la corrupción puede disminuir si se toman las medidas necesarias.

5. **Promoción de la puesta en práctica de medidas anti-corrupción:** El Líder Anti-Corrupción, en representación de la SCI, promoverá la puesta en práctica de medidas anti-corrupción por parte de todas las partes interesadas en el sector de infraestructura de Colombia. La forma como el Líder Anti-corrupción logra este objeto queda a discreción de la SCI, pero podría incluir lo siguiente:

- Reunirse con las principales partes interesadas en el sector (tales como instituciones gubernamentales, asociaciones comerciales, sociedades profesionales, financieras, contratistas, y firmas de ingeniería de consulta) para discutir la importancia de las medidas anti-corrupción y recomendar las medidas a tomar para ponerlas en práctica.
- Llevar a cabo una conferencia anti-corrupción
- Adelantar un foro, o alianza, con otras partes interesadas claves para promover una agenda anti-corrupción sobre una base de colaboración mutua.

6. **Entrenamiento anti-corrupción:** En representación de la SCI y trabajando conjuntamente con otros representantes de la SCI, el Líder Anti-Corrupción adelantará las siguientes actividades:

ANTI-CORRUPTION ALLIANCE BETWEEN SCI AND GIACC

[View Details](#) | [Edit](#) | [Delete](#)

It is agreed that the Colombian Society of Engineers (SCI) and the Global Infrastructure Anti-Corruption Centre (GIACC) should form an anti-corruption alliance. The terms of the alliance are as follows:

1. **Common objective:** SCI and GIACC agree to work together in the infrastructure sector with the following objective:
"To promote the implementation of anti-corruption measures as an integral part of government, corporate and project management".
 2. **Informal alliance:** The alliance between SCI and GIACC will be informal. No new organisation will be formed, and there will be no resulting legal or contractual obligations. It is merely an alliance to achieve a common objective for the public good.
 3. **SCI actions:** SCI will work with stakeholders in the infrastructure sector in Colombia:
 - to raise awareness of corruption by promoting and/or providing anti-corruption training; and
 - to promote the implementation of anti-corruption measures.
 4. **Anti-Corruption Leader:** SCI will appoint an Anti-Corruption Leader (or similar title) who will be a senior member of SCI, and who will lead the implementation of SCI's anti-corruption strategy. The Anti-Corruption Leader should possess the following qualities:
 - considerable experience of the infrastructure sector
 - a commitment to the anti-corruption agenda
 - enthusiasm and energy, and
 - a belief that corruption can be materially reduced if necessary action is taken.
 5. **Promoting the implementation of anti-corruption measures:** The Anti-Corruption Leader, in the name of SCI, will promote the implementation of anti-corruption measures by all key stakeholders in the infrastructure sector in Colombia. The manner in which the Anti-Corruption Leader does this will be at the discretion of SCI, but could include the following:
 - Holding meetings with key stakeholders in the sector (e.g. government departments, business associations, professional institutions, funders, contractors and consulting engineering firms) at which the importance of implementing anti-corruption measures is discussed, and recommended measures are suggested.
 - Holding an anti-corruption conference.
 - Developing a forum, or alliance, with other key stakeholders to promote the anti-corruption agenda on a collaborative basis.

6. **Anti-corruption training:** The Anti-Corruption Leader will, in the name of SCI, and working with other SCI representatives:
 - promote anti-corruption training (for example, by encouraging its members to undertake on-line anti-corruption training modules, or attend training workshops); and/or
 - provide anti-corruption training workshops to key stakeholders in the infrastructure sector in Colombia.
7. **Support from GIACC:** GIACC, as part of its alliance with SCI, will provide, free of charge, training materials, recommended anti-corruption management programmes, advice on how to promote the anti-corruption agenda, and other reasonable advice and support to the Anti-Corruption Leader. Whenever GIACC updates these products, it will provide the updated version of the product to SCI free of charge. This support and advice will be provided to the Anti-Corruption Leader by GIACC by e-mail or telephone from GIACC's UK office
8. **Other projects:** SCI and GIACC may also agree on a case by case basis on projects on which they can co-operate so as to achieve the objective.
9. **Web-sites:** SCI and GIACC will refer to this alliance on their web-sites, and will provide a link on their own web-site to the other's web-site. SCI will refer its members to the GIACC Resource Centre, which is a web-resource, which provides free access to information, advice and tools designed to help stakeholders understand, prevent and identify corruption. www.giaccentre.org

Agreed by the Colombian Society of Engineers

SCI agrees to work together with stakeholders in the infrastructure sector in Colombia

In order to combat corruption by promoting transparency and accountability in the engineering profession

D. Daniel Pérez
Daniel Flórez Pérez
President
Colombian Society of Engineers

Agreed by the Global Infrastructure Anti-Corruption Centre
